

7.1.3 ACTION TAKEN REPORT

Date: 11/12/2023

Quality Audits on environment and Energy are regularly undertaken by the institution.

1. Energy Consumption and Saving Efforts

At PHiMSR we take utmost efforts to save the energy and electricity and signage boards and notices are displayed at the premises. Students are instructed at the Induction stage to switch off electricity equipment after usage and are regularly encouraged to save the electricity.

The integrated campus has installed solar panels for clean energy provision and solar battery panels. Regular maintenance and inspection of such equipment is ensured from time to time.

2. Water Conservation Efforts

The institute has installed the Rainwater Harvesting Mechanism; it channelizes the rain water and put it for optimum usage. The institute has proper and adequate water storage system and there is a continuous surveillance of water taps and pipes to avoid the leakage.

signage are displayed for students and staff for the optimum usage of water and avoid wastage.

3. Clean Campus / Waste Management

Institute has an experienced housekeeping staff to ensure the litter free campus. The classrooms and washrooms are regularly cleaned after breaks on the daily basis.

The Solid waste management Infrastructure such as plastic water bottle crushing machine, dustbins, septic tanks are installed at adequate and proper places to ensure the clean campus.

The institute also has E- waste management system.

4. Green Campus

The students and staff are discouraged from using plastics. No plastic policy is followed at campus. No honking is followed on campus. The entire campus is automobile free and there is a specific area for parking vehicles. The institute has provided an adequate facility of charging points for e vehicles at the parking area.

The biogas plant at the campus is installed for making optimum usage of the resources and avoids wastage. LED bulbs are installed in the campus everywhere to save on the electricity and energy. Maintenance and inspection of the equipment is ensured at regular intervals.

There is a green campus Audit conducted every year for the entire campus.

5. Quality Audits

The Institute undertakes the energy and green audit every year through the external auditing agency to ensure clean and green campus and pollution free environment.
